CAREER

A motivated, self-thought web developer looking to work in the web industry.
I really became addicted to code and looking for opportunities to learn new
things!

TECHNICAL PROFICIENCIES:

JavaScript,JQuery,HTML,HTML5,CSS,CSS3,React.JS,Redux,GIT
CSSFramework(Bootstrap,Bulma,Foundation), Few Security Principles
User Interface Design (UI).

PROJECTS

THE SPACE BETWEEN
June 2018

Built a web app for a real metal band based in Haifa,Israel.

used HTML5 and CSS3 for styling,React component based for

managing routes and also Bootstrap for a responsive grid.

https://thespacebetween.herokuapp.com/

THE MEDITERRANEAN BIENNALE
July 2018

Created a responsive website for the mediterranean

biennale based in Sakhnin,Israel.

This project styled with css and html, and using state managment

This project uses react-router for managing the routes and

Bootstrap for a responsive grid.

THE BURGER BUILDER
July 2018

This is the final project of a React.js course (UDEMY),

it is 100% REACT and REDUX component based project.

This project uses alot of react&redux principles - build this

was a lot of fun !
